PROJECT: 5601-CS 1799.06
DESCRIPTION: FAN ASSEMBLY FDA560X
ITEM NO: CS 179906-1
• QTY: 1 NO. •
PART NO: FAN030
PO NO: 2137AS511
EQUIPMENT: HVAC MAIN MACHINES

PIPE IDENTIFICATION BANDS

FOR PERSONNEL PROTECTION & PIPE LINE IDENTIFICATION

The identification bands help identify the contents of each and every pipe that exist in any Facility, this means marking the pipe at regular intervals, with instantly recognizable signs.

These colour coded polythene and PVC pipe I.D. bands are manufactured in the U.A.E. in accordance with Bs 1710: 1984 and BS 4800 colour references. They are supplied in 25 Meter rolls 400mm wide

AC DUCT WORK TRIANGLE

We have invented an instant method of recognition, in both emergency and routine maintenance situation, through simple colour coded equilateral triangles which helps identify Duct Work easily.

These are available in 150mm size and are made of self adhesive stickers. Further additional informations could be provided by printed letters or numbers. The pointed ends of the triangles indicates the direction of the air movement.

Duct work triangles available with or without printing
